COMPLIANCE REPORT April 2024 – September 2024

M/s CITY CRUSHERS THIRUVANANTHAPURAM DISTRICT KERALA

Dt. 12-11-2024

The Additional Principal Chief Conservator of Forests (C) Ministry of Environment, Forests & Climate Change, 4th Floor, E& F Wing, Kendriya Sadan, Koramangala, Bangalore - 560034

Ref :- File No. 1261/EC2/2019/SEIAA dt.22-07-2021

Ref :- Transfer of EC dt. 24-06-2022

Sub :- Environment Clearance - Quarry project at Survey No. 222/1, Aryanad Village, Nedumanagad Taluk, Thiruvananthapuram District, Kerala - Compliance Report -First Half - Reg.

Respected Sir,

The Quarry (Building stone) project was accorded Environmental Clearance for **4.270Ha**. by order No. **1261/EC2/2019/SEIAA**dated 22-07-2021 and transferred to City Crushers on 24-06-2022by StateEnvironmental Impact Assessment Authority,Kerala. The compliance report of **Firsthalf** (April2024–September2024) to the specific and general conditions of the Environment Clearance order is enclosed.

Thanking you,

Yours respectfully,

M/s City Crushers

INTRODUCTION

The quarry project of **M/s City Crushers** is situated at Survey No. **222/1**, Aryanad Village, Nedumanagad Taluk, Thiruvananthapuram District, Kerala

The quarry project was accorded with the Environmental Clearance (EC) by State Environmental Impact Assessment Authority on 22-07-2021. The EC was transferred by SEIAA on 24-06-2022. As part of general condition No.27 of Environmental Clearance order, half yearly compliance report needs to be submitted by the project proponent. The compliance report of **First half** to the specific conditions and general conditions of the Environmental Clearance order for the period of **April 2024 – September 2024** is being submitted.

The extraction of minerals started by 20-01-2023.

COMPLIANCE REPORT (SPECIFIC CONDITIONS) PART A

PART - A - SPECIFIC CONDITIONS

01	The proponent shall carry out quarrying as per the approved mining	Complied
	plan and the proponent should strictly follow the Kerala Minor Mineral	
	Concession Rules 2015 and amendment thereby.	

The proponent is extracting the mineral in compliance with the rules and the plan that was submitted and authorized by the department. The Kerala Minor Mineral Concession Rules, 2015, are being closely adhered to by the proponent. Benches are being crated from top to bottom in order to conduct the mining.

02	As the quarry site is located within 10 km radius of the Neyyar and	Complied
	Peppara Wildlife Sanctuary, as per OM Dt. 08-08-2019 of MoEF&CC	
	clearance from Standing Committee of the National Board for Wildlife	
	is mandatory for starting a quarry. Hence Project Proponent is	
	directed to obtain a Clearance from Standing Committee of the	
	National Board for Wildlife before starting any activity at site.	

The National Board for Wild Life has granted the project proponent approval to start activities at the authorized site. The copy of the wild life clearance is attached as **Annexure No.1.**

03	As per OM no F.No.22-65/2017-IA.III dated 30th September2020,
	under Corporate Environmental Responsibility (CER) the project
	Proponent shall prepare an Environment Management Plan (EMP)
	as directed by SEAC during appraisal, covering the issues to
	address the environmental problems in the project region,
	indicating both physical and financial targets year wise. The EMP
	shall be implemented in consultation with District Collector. The
	indicated cost for CER shall be 2% of the project cost depending
	upon the nature of activities proposed. The follow up action on
	implementation of CER shall be included in the half yearly
	compliance report which will be subjected to field inspection at
	regular intervals. A copy of the approved EMP by SEAC shall be

Noted for compliance

forwarded to the concerned local self- government institute for information and to support the project proponent in implementation of activities proposed in the EMP.

Programs have been carried out by the proponent under the head of CER. The proponent is keeping a specified account for the CER operations, which are appropriately recoded. The quarry project began in January 2023. The proponent of the project has spent ₹ 196400.00 between April 2024 and September 2024. The details of amount spent in this period is attached as **Annexure No.2**

04	Considering the seriousness of COVID Pandemic in the State, the	١
	project Proponent shall carry out certain activities under Corporate	C
	Environmental responsibility (CER) leading to creation of	
	temporary Covid care facilities and other related with managing the	
	Covid pandemic in the State. This will be done in consultation with	
	local self-governments and as per an action plan approved by	
	District Collector and SEAC. The indicated cost for this purpose will	
	be 50% of the CER cost estimated in the EMP. The EMP may be	
	modified to accommodate with SEAC. The activities so	
	implemented shall be shown in the half yearly completion report. A	
	copy of the approved EMP by SEAC shall be forwarded to the	
	concerned local self-government institute for information and to	
	support the project proponent in implementation of activities	
	proposed in the EMP.	

Noted for compliance

The quarry only began operations in January 2023. As of right now, COVID-19 does not exist. The PP will work with the Primary Health Centre and Local Self Government to prevent additional infectious diseases. A copy of the authorized EMP has been submitted to the local government.

In the wake of occurrence of large-scale landslide in the State, as per the information provided by the Department of Mining & Geology, it is directed to use only NONEL (Non-Electrical) technology for blasting

complied

to reduce the vibration of the ground, which is one of the causative factors that triggers landslides, formation of cracks in the surrounding buildings and disturbance to human and wildlife.

As per the directions of the Mining and Geology department the PP has bene following NONEL technology for blasting operation. Qualified and skilled persons have been deployed for monitoring and managing quarry operations at site.

As per the directions contained in the OM F.No.22-34 2018-14.III dated 16 January 2020 issued by MoEF&CC, in obedience to the directions of the Honorable Supreme Court the Project Proponent shall, undertake re-grassing the mining area and any other area which may have been disturbed due to mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. The compliance of this direction shall be included in the half yearly compliance report which will be monitored by SEAC at regular intervals.

Noted for compliance

The proponent will act in accordance with MoEF&CC OM F.No.22-34 2018-14.III, which addresses the mining area's eco restoration as part of vegetation improvement. The mining area and any other area that may have been disrupted by mining operations will be re-grassed by the PP. The mined-out land will be restored to a state that allows for the growth of flora and fauna. The half-yearly compliance report will include the compliance.

The EC period will be further extended to cover the project life as estimated by SEAC after a field inspection by SEAC to ensure that the Project Proponent has followed all EC conditions and there is no violation of any Act, Rules and Regulation applicable for quarrying.

The project proponent has been implementing the conditions stipulated in the environmental clearance. The is following all EC conditions scrupulously.

COMPLIANCEREPORT

Authority makes it amply clear that EC issued does not necessarily imply that Wildlife Clearance shall be granted to the Project Proponent and that the proposal for Wildlife clearance will be considered by the respective Authorities on its merit and decision taken accordingly. The investment made in the project if any based on this EC in anticipation of Clearance from Wildlife angle shall be entirely at the cost and risk of the Project Proponent and MoEF&CC and SEIAA shall not be responsible in this regard in any manner.

complied

The National Board for Wild Life has been granted permission for quarrying in the proposed area. No other restrictions were imposed by the National Board for Wild. The copy of the same is attached as Annexure.

A copy of the EC shall be marked to IGF(WL), MoEF&CC, PCCF and Chief wild life Warden, Kerala, SEAC, District Collector, Thiruvananthapuram and Director Mining and Geology, Department of Industries GOK, besides others for information and necessary further action.

Noted

All the allied department concerned with respect to this project has been communicated about the environmental clearances secured by the PP. The copy of the EC granted has been furnished before the offices mentioned in the condition with proper acknowledgment. No further recommendations or advise has been received form the authorities.

COMPLIANCE REPORT (SPECIFIC CONDITIONS) PART B

PART - B - GENERAL CONDITIONS

01	A separate environmental management and monitoring cell with	Complied	
	qualified personnel should be set-up under the control of a Senior		
	Executive, who will report directly to the Head of the Organization.		

The proponent established the Environmental Monitoring Cell (EMC) in accordance with the EC's requirements. To assess and oversee quarrying operations pertaining to environmental management and quarrying under the general and specific guidelines outlined in the Environmental Clearance (EC) order, the EMC meets on a regular basis. Every action taken by EMC is accurately documented.

02	Suitable avenue trees should be planted along either side of the	Complied
	tarred road and open parking areas, if any, including of approach	
	road and internal roads.	

In order to create a green belt and avenue trees, the project proponent has planted more tree seedlings in the project area. There are native trees and other plants on both sides of the road and parking area. When minerals are being transported, this reduces noise and air pollution.

03	Sprinklers shall be installed and used in the project site to contain	Complied
	dust emissions.	

A vehicle is spraying water on internal roads as part of the initiative to stop dust emissions from the road while items are being transported. The mining area is splattered with water prior to blasting. Sprinklers have been permanently installed by the project's proponent to mitigate air pollution.

04	Eco-restoration including the mine closure plan shall be done at the	Will	be
	own cost of the project proponent.	comp	lied

The project proponent developed an environmental restoration strategy, and it is being executed effectively. A variety of saplings were planted on the project site and in the surrounding region to start the project. According to the proposal, the mine closure plan will be carried out at the project proponent's expense.

05	In view of the deep pits left after the excavation, stacking at maximum	Will	be
	top level should be carried Out.	comp	lied

The pits will be reclaimed during mine closure.

06	Corporate Environment Responsibility agreed upon by the proponent	Being
	should be implemented.	complied

The proponent has implemented a number of programs under the Corporate Environment Responsibility. Under the scheme, the PP has already invested Rs. 7,74,000 on infrastructure development and health. During the reporting period, ₹1,96,400.00 was spent. The activities are accurately documented.

07	The project proponent shall comply the conditions stipulated by the	Complied
	statutory authorities concerned.	

The project proponent has been following all conditions stipulated in the EC order and other relevant provisions and directions stipulated by various department concerned in the project.

0	8	Tarring /multiple options on the access roads shall be undertaken so	Complied
		as to reduce dust pollution during movement of vehicle.	

The road leading to the quarry from the entrance has been tarred by the proponent as part of an effort to reduce dust pollution and maintain a better air quality. Vehicle traffic is the main source of dust pollution in the location. The discharge of dust was

decreased by the tarring. Additionally, the project proponent is watering the haulage and approach roads to prevent dust throughout the summer.

09	Overl	Complied										
	for r	eclamation	of	mine	pit	as	per	mine	closure	plan/specific		
	condi	tions.										
												1

A portion of over burden has been utilized for constructing haulage roads. There is old quarry in the site for restoration with overburden.

ſ	10	Height of benches should not exceed 5 m, and width should not be	Complied
		less than 5 m, if there is no mention in the mining plan/specific	
		condition.	

The requirements for building a bench have been met in order to ensure both safety and environmentally responsible mining. The benches that are created is five meters wide and five meters high, the quarrying activity is under progress.

11	Ground level should be fixed in individual cases separately	Complied

The ground level has been fixed by concreates pillars.

12	No mining operations should be carried out at places having a slope	Complied
	greater than 45 ⁰	

In the project site there is no area with slope greater than 45°. No mining operation is carried out with a slope greater than 45°.

13	Acoustic enclosures should have been provided to reduce sound	Complied
	amplifications in addition to the provisions of green belt and hollow	
	brick envelop for crushers so that the noise level is kept within	
	prescribed standards given by CPCB/KSPCB. This condition is	
	applicable only in such cases if a crusher is adjacent to the quarry	

The project sponsor has supplied earplugs to reduce the noise level impact on workers in the quarry. Every machine receives routine maintenance. Air pollution and noise levels are decreased by the presence of vegetation near the mining site. This aids in maintaining the noise level within the established parameters.

14	-	The	workers	on	the	site	should	be	provided	with	the	required	Complied
	ı	prote	ctive equ	iipm	ent s	uch a	as ear m	uffs,	, helmet, e	tc.			

The PP has provided the mine workers with personal protection equipment (PPE) such as helmets, earplugs, safety harnesses, gloves, reflective jackets, shoes, and other items in accordance with the labour laws that apply to the project and to carry out those laws.

15	Garland	drains	with	clarifiers	to	be	provided	in	the	lower	slopes	Complied
	around tl	he core	area	to channe	elize	e sto	orm water.					

The PP has constructed a pond near the mining site to receive storm water from the mining area. In the lower slopes of the project area, the project proponent has constructed a sufficient number of garland drains where storm water management is required.

16	The transportation of minerals should be done in covered trucks to	Complied						
	contain dust emissions. The proponent should plant trees at least 5							
	times of the loss that has been occurred while clearing the land for							
	the project. SEAC should assess the number of trees in each project							
	site before the issuance of EC so as to ensure the promptness in							
	planting.							

The project proponent guarantees that the trucks are covered to prevent dust emissions from the vehicle during material transportation. The proponent has planted a variety of saplings in the project area as part of compensatory afforestation. More saplings will be planted at the project site.

17	Explosives should be stored in magazines in isolated place specified	complied
	and approved by the Explosives Department.	

In accordance with the directives of the appropriate authorities and concern for safety, the explosives are kept in magazines. The magazine is located in a remote area that has been designated and authorized by the explosives department.

18	A minimum buffer distance of 100m from the boundary of the quarry	complied
	to the nearest dwelling unit or other structures, not being any facility	
	for mining shall be provided.	

The project complies with the Kerala State Pollution Control Board guidelines for the separation of homes, roads, waterways, and places of worship. The closest residence is more than 100 meters away from the quarry.

19	50 m buffer distance should be maintained from forest boundaries.	complied

The project proponent has left more than 50 meters as buffer distance from the project site.

20	Consent from Kerala State Pollution Control Board under Water and	complied
	Air Act(s) should be obtained before initiating mining activity.	

In accordance with the Water and Air Act, the project has received approval from KSPCB. A copy of the Kerala State Pollution Control Board's "Consent to Operate" (Renewal) certificate is provided.

2	21	All othe	r statutory cle	earanc	es sh	ould be obta	ained, as ap	plicable, by	complied
		project	proponents	from	the	respective	competent	authorities	
		including	g that for blas	ting ar	nd sto	rage of explo	osives		

The licenses and approvals that were obtained from the various statutory agencies and corresponding departments. The copies of the same is attached as **Annexure No 3 to 8.**

In the case of any change(s) in the scope of the project, extent quantity, process of mining technology involved or in any way affecting the environmental parameters/impacts as assessed, based on which only the EC is issued, the project would require a fresh appraisal by this Authority, for which the proponent shall apply and get the approval of this Authority.

Will be Complied

The project proponent has no plans of expanding it. A new SEIAA approval will be obtained in the event that the project's scope changes.

The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act. 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.

Noted for compliance

It is agreed that the project proponent will adhere to any further measures that the authority deems appropriate to ensure environmental safety.

The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act,1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act,1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.

Complied

City Crushers COMPLIANCEREPORT

The stipulated orders and directions under different act and notification including EIA notification is being scrupulously followed. A brief list of various Acts and notifications which are followed by the proponent is given below

- ➤ Kerala Minor Mineral Concession Rules, 2015.
- > Mines Act, 1952
- ➤ Explosive Rules, 2008
- > Kerala Panchayat Raj Act, 1994
- > Water Pollution (Prevention & Control) Act, 1974
- > Air Pollution (Prevention & Control) Act, 1981
- > Environment Protection Act, 1986
- > EIA Notification, 2006 / 2009

25	The project proponent should advertise in at least two local	Complied
	newspapers widely circulated in the region, one of which (both the	
	advertisement and the newspaper) shall be in the vernacular	
	language informing that the project has been accorded	
	Environmental Clearance and copies of clearance letters are	
	available with the State Environment Impact Assessment Authority	
	(SEIAA) office and may also be seen on the website of the Authority	
	at www.seinakerala.org. The advertisement should be made within	
	10 days from the date of receipt of the Clearance letter and a copy of	
	the same signed in all pages should be forwarded to the office of this	
	Authority as confirmation.	

Within the given time frame, the quarry project's environmental approval was publicized in two local daily newspapers (Malayalam and English), and a copy of the advertisement was sent to SEIAA Kerala. The copy of the advertisement given in two local newspapers is provided at **Annexure No.9.** The details are given below in the table.

Table No. 4 Details of advertisement in news paper

SI. No	News paper	Language	Date of edition
01	Mangalam	Malayalam	28-July-2021
02	The New Indian Express	English	28-July-2021

	The Environmental Clearance shall be put on the website of the	Complied
26	company by the proponent.	

A copy of the Environment Clearance has been posted on the website of the company.

Ī	27	Proponent shall submit half yearly reports in soft copy and SEIAA will	Complied
		upload it on the website.	

The MoEF&CC Regional Office in Bangalore and the State Environmental Impact Assessment Authority in Kerala are receiving the compliance report and the results from the monitored data. The company's website includes the EC order and the compliance report. The copy of monitoring result is attached as **Annexure No.10-12.**

28	The details of Environmental Clearance should be prominently	Complied
	displayed in a metallic board of 3ft x 3ft with green background and	
	yellow letters of Times New Roman font of size of not less than 40.	
	Sign board with extent of lease area and boundaries shall be	
	depicted at the entrance of the quarry, visible to the public.	

Details of the Environmental Clearance is provided on the project site. The metallic board has been positioned by the project proponent in accordance with the Environmental Clearance order.

29	The proponent should provide notarized affidavit (indicating the	Complied
	number and date of Environmental Clearance proceedings) that all	
	the conditions stipulated in the EC shall be scrupulously followed.	

The notarized affidavit guaranteed by the project proponent has submitted stating that all the conditions stipulated in the EC order will be complied.

30	No change in mining technology and scope of working should be	Agreed to
	made without prior approval of the SEIAA, no further expansion or	Comply
	modifications in the mine shall be carried out without prior approval	
	of the SEIAA, as applicable.	

The PP will request environmental approval from SEIAA if the project proponent wants to expand the project's scope. The mining is moving on in accordance with the given plan.

The Project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any, originating from the mine lease shall be taken.

Complied

The PP is assured that no mining activities would obstruct the natural discharge of storm water. No streams originate in the lease area. There isn't a thodu or natural water stream running alongside the project site.

The top soil, if any, shall temporarily be stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The over burden (OB) generated during the mining operations shall be stacked at earmarked dump site(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of the dumps shall be maintained to 45" The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface run off. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. The entire excavated area shall be backfilled Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining

Complied

To prevent soil erosion on the project site, the top soil and overburden are piled in a particular spot. All that is used for planting. Overburden is being used in the mining area for landfilling and the construction of haulage roads. The surplus is being stored definite area.

Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps to prevent run off of water and flow of sediments directly into the river

Complied

and other water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.

Effective garland drains were constructed by the project proponent to collect all of the storm water during the monsoon season. The rainwater gathering pond receives these channels. Only until all silt and sediments have sunk to the bottom will clean water be released from the pond. Water from the pond is used to splash onto highways in an effort to reduce dust.

Beffective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of PM and PMs such as haul Road, loading and unloading points and transfer points- it shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.

Complied

To reduce dust emissions, the project proponent installed sprinklers at strategic sites, including loading and unloading areas, transfer points, and haul routes. To prevent the emission of dust, water spraying has been done on a regular basis. The mobile sprinkler is being carefully maintained to prevent dust emissions.

Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.

To reduce the discharge of dust, the project has been equipped with splashes at strategic locations. The locations, including truck routes, transfer areas, and loading and unloading areas.

36	Measures should be taken for control of noise levels below 85 dBA in	Complied
	the work environment.	

Truck noise, jackhammer noise, breaker noise, and blasting activities are the main sources of noise in the mining sector. The maximum noise level that any of these activities can produce is 85 dBA. The project proponent will use all available tools to reduce the noise as much as possible.

37	The funds earmarked for environmental protection measures and	Complied
	CER activate should be kept in separate account and should not be	
	diverted for other purpose. Year wise expenditure should be reported	
	to the State Environment Impact Assessment Authority (SEIAA)	
	office.	

Funds allocated for environmental protection and corporate social responsibility have been held in a different account by the project proponent. This makes it easier to carry out more CSR (corporate social responsibility) projects for the benefit of the society.

38	The Reg	ional Office of	MOE	F & CC located	l at Ban	galore shall	Agreed to
	monitor	compliance o	f the	stipulated cond	litions.	The project	comply
	authoritie	s should exter	nd full	cooperation to t	he office	er (S) of the	
	Regional	Office	by	furnishing	the	requisite	
	data/info	rmation/monitor	ing re	oorts.			

The project proponent maintains all records with an effective documentation system and diligently complies with the requirements outlined in the EC directive. The project proponent has offered the officers from the regional office of MoEF & CC all assistance possible, and upon request, they are able to provide any data, information, or reports.

39	Any appeal against this Environmental Clearance shall lie with the	Complied
	National Green Tribunal, if preferred, within a period of 30 days as	
	prescribed under Section 16 of the National Green Tribunal Act,	
	2010.	

No appeal against EC order at NGT within 30 days.

40	Concealing the factual data or submission of false fabricated data	complied
	and failure to comply with any of the conditions mentioned above	
	may result in withdrawal of this clearance and attract action under the	
	provisions of Environment (Protection) Act, 1986.	

The project proponent has produced all factual data and no data or other information concealed during the time of appraisal.

41	The SEIAA may revoke or suspend the order, for non-implementation	Noted
	of any of the specific or this implementation of any of the above	
	conditions is not satisfactory. The SEIAA reserves the right to	
	alter/modify the above conditions or stipulate any further condition in	
	the interest of environment protection.	
		1

As stated in this Environment Clearance order, the project proponent is adhering to the standards. Every practical environmental conservation measure can be implemented on the project site.

42	The above conditions shall prevail notwithstanding anything to the	Complied
	contrary, in consistent, or simplified, contained in any other permit,	
	license on consent given by any other authority for the same project,	

Priority is given by the project proponent to the requirements outlined in the Environment Clearance Order.

Ī	43	The Environmental Clearance will be subject to the final order of the	Agreed to
		courts in any pending litigation related to the land or project, in any	comply
		court of law.	

There is pending litigation before any court of law.

44	The mining operation shall be restricted to above ground water table	Complied
	and it should not intersect ground water table.	

Building stones are being extracted by the project proponent in compliance with a mining plan that has been approved. The project proponent restricts its mining operations above the ground water table. The same instruction has been given to the qualified person.

45	All vehicles used for transportation and within the mines shall have	Complied	ì
	PUC certificate from authorized pollution taking centre. Washing of		ı
	all vehicles shall be inside the lease area		Ì

The proponent of the project is monitoring the pollution levels of all vehicles on the project site in an attempt to lower air pollution. For this monitoring, only authorized pollution checking centres are utilized. Near the lease area, on the project proponent's property, vehicles will be washed.

46	Project proponent should obtain necessary prior permission of the	Noted
	competent authorities for drawl of requisite quantity of surface water	
	and ground water for the project.	

At present, the need of prior approval is not necessary to draw ground water and surface water for the project.

47	Regular monitoring of flow rates and water quality upstream and	Noted
	downstream of the springs and perennial nallahs flowing in and	
	around the mine lease area shall be carried out and reported in the	
	six-monthly reports to SEIAA.	

There is no stream or springs flowing in and around to the mine lease area

48	Occupational health surveillance program of the workers should be	Noted for
	under taken periodically to observe any contractions due to	compliance
	exposure to dust and take corrective measures, if needed.	

City Crushers COMPLIANCEREPORT

An occupational health surveillance program for workers in mining areas will be conducted by the project sponsor in partnership with the Primary Health Centre (PHC) of the Kerala government.

Annexure No.1

F.No.6-55/2021 WL Government of India Ministry of Environment, Forest and Climate Change (Wildlife Division)

2nd Floor, Jal Wing Indira Paryavaran Bhawan Jor Bagh Road, Aliganj New Delhi 110003

Date:12.07.2021

The Principal Secretary Kerala Forest Department Vazuthacaud Thiruvananthpuram-695014

Sub: Proposal for Building Stone Mine (Quarry) project of Mr. Biju V.T. at Survey No. 222/1, Block No:47 in Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala for an area of 4.2700 Ha, Kerala- reg.

Sir.

Reference is invited to the subject mentioned above. The 63rd Meeting of Standing Committee of National Board for Wild Life was held on 11th June, 2021 through Video Conference under the Chairmanship of Hon'ble Minister for Environment, Forest & Climate Change.

After discussions, the Standing Committee decided to recommend the proposal subject to following:

- A. Condition imposed by the Chief Wild Life Warden:
- 1. There should not be any activity before sunrise and after sunset.
- B. The annual compliance certificate on the stipulated conditions should be submitted by the project proponent to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Government of India.

Details of the recommendations have been illustrated in the minutes of the meeting posted online in the "PARIVESH" portal of this Ministry.

Yours faithfully,

(Surender Gugloth)

Scientist 'D'

PROCEEDINGS OF THE STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY – KERALA, THIRUVANANTHAPURAM

(Present: Dr.H.Nagesh Prabhu IFS (Retd), Chairman, Dr.Jayachandran.K, Member, Dr.V. Venu IAS, Member Secretary)

Sub: SEIAA - Environmental Clearance for the proposed granite building stone quarry project in Re.Survey No. 222/1, Block No:47 in Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala by Mr. Biju.V.T.-Granted - Orders issued.

State Environment Impact Assessment Authority, Kerala

No.1261/EC2/2019/SEIAA dated, Thiruvananthapuram 22.07.2021

Ref: 1. Application received on 05.03.2019 from Mr.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram- 695572

- 2. Minutes of the 96th SEAC Meeting held on 26th & 27th April 2019
- 3. Minutes of the 97th SEAC Meeting held on 21st & 22nd May 2019.
- 4. Minutes of the 99th SEAC meeting held on 26th & 27th June, 2019.
- 5. Minutes of the 105th SEAC Meeting held on 28th & 29th October, 2019.
- 6. Minutes of the 106th SEAC meeting held on 28th, 29th & 30th November, 2019.
- 7. Minutes of the 107th SEAC meeting held on 24th December, 2019.
- Minutes of the 101st SEIAA meeting held on 17th & 18th January 2020.
- 9. Minutes of the 110th SEIAA meeting held on 29th & 30th June, 2021.
- 10. G.O(Rt.) No.29/2019/Envt dt.12.04.2019.

ENVIRONMENTAL CLEARANCE NO.30/Q/2021

Mr.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram-695572, vide application received on 05.03.2019, has sought Environmental Clearance under EIA Notification, 2006 for the granite building stone quarry project in Re.Survey No. 222/1, Block No:47 in Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala for an area of 4.270 Ha. . The project details are as follows:

Page 1 of 8

SL.No.	Particulars	Details		
1	Name of the Project	Granite building stone quarry project of Mr.Biju.V.T		
2	Proposed Activity	Mining of Granite Building Stone		
3	Name of the Sector & Schedule No. (in the EIA Notification, 2006)	Non Coal mining, Activity 1(a), Category B2 as per the Schedule of EIA Notification 2006.		
4	Name & Address of the Project Proponent	Mr.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram- 695572		
5	Project Location			
	a) Re.Survey Nos:	Re.Survey No. 222/1		
	b) Revenue Village &Panchayat	Aryanad Village		
LU Te	c) Taluk	Nedumangad Taluk		
mpf i	d) District	Thiruvanathapuram		
6	Geo Co-ordinates	Latitude 08 ⁰ 34'55.847" N to 08 ⁰ 35'02.424" N Longitude 77 ⁰ 06'27.049" E to 77 ⁰ 06'41.185" E		
7	Extent (in Acre/Hectare)	4.270 Ha.		
8	Project Cost (in Lakh)	1 Crore 8 lakhs		
9	Production Details	1,56,885 TPA		
10	Water Requirement	The daily water demand will be only 4 KLD. Total 4 KLD of water is required, for plantation —1KLD, Dust Suppression — 2 KLD and for Domestic purpose - 1 KLD. This will be obtained from nearest old quarry and tanker supply. No signicant waste water will be generated and so no proposal of recycling of waste water.		
11	Power Requirement	Electric power required for office about 2 KW		
	. C. of Requirement	per day, which is drawn from electric line.		
12	Solid Waste Management	The mine waste proposed is to be stacked in the dump area specially provided for the purpose		

Page 2 of 8

12	Tight to partie Date in	Stacking yards shall be located in a secure place on a non-used zone, having solid base and have been protected by toe walls. The toe walls shall be constructed during first year period. The height of these dumps shall also be restricted and benched. A retaining wall 0.5 m X 1.0 m will be made on the low altitude side the dump.
13	Field Inspection Details	Date of Field Inspection: 9.8.2019
14	Details of CSR commitment	As per the office memorandum given by Govt.of India, MoEF&CC, Impact Assessment Division, 1% of the capital investment should be used for brown field (Rs.1,08,000) 2% of the capital investment should be used for green field (Rs 2,16,000). 50% of the CSR (Rs.54000/-) given for the Anganvadi centre near the site (2 km) at Kuttichal. Remaining 50% will be given to Govt. L.P. School at Aryanad
15	Validity	5 years from the date of issuance of EC

- 2. The proposal was placed in the 107th SEAC meeting held on 24th December, 2019. The Committee decided to recommend for issuance of EC subject to the condition that the EC shall be granted after getting the certificate from the National Wildlife Board.
- 3. The proposal was placed in the 101st SEIAA meeting held on 17th& 18th January 2020. Authority noticed that Clearance from National Wild Life Board is required and the proponent had applied for the same. Authority decided to wait for the Clearance from the National Wild Life Board. In the meantime a petition was received from Sri.Shafiyulla Khan with a request for personal hearing on 13.01.2020 alleging misrepresentation of facts and possible environmental hazards in the locality if quarrying is permitted. The Authority forwarded the petition to the Director of Mining and Geology and District Collector, Trivandrum on 05.02.2020 for further enquiry and report.

Later Sri.Shafiyulla Khan vide letter dated 14.09.2020, stated that the complaint submitted to this office was not of him. Also he stated that the name, address and signature were fake in the complaint. He registered a case in Nedumangad Police station and he has no complaint against the operation of the proposed quarry. This submission of Sri.Shafiyulla

Page 3 of 8

Khan was forwarded to the Director of Mining and Geology and District Collector, Trivandrum vide Authority's letter dated 09.10.2020.

District Collector vide letter dated 05.02.2021 informed that the complainant, Sri.Shafiyulla Khan was heard on 28.01.2021 by Thahasildar, Nedumangad and the complainant didn't submit a complaint before SEIAA regarding the proposed quarrying activities.

Authority vide reminder letter dated 11.02.2021, sought report on the complaint forwarded from the Director of Mining and Geology, Trivandrum. Director of Mining and Geology vide his letter dated 15.02.2021 reported that the letter of intent had been issued for the proposed quarry.

Authority vide letter dated 24.02.2021, reminded proponent for furnishing the Clearance from the National Wildlife Board. But the proponent didn't submit the Clearance yet.

The proponent vide letter dated 24.04.2021 requested for according Environmental Clearance by pointing out that the decision taken by the Authority in Item No.108.13, 108.28 & 108.32 is contrary to the stand taken by SEIAA with regard to his project. The Authority does not insist for Clearance from NBWL as pre-requisite for issuance of EC for these projects. He complains that his fundamental right is denied by the Authority and as per the Constitution of India "equality before law and equal protection of law", he is eligible for EC without Clearance from NBWL.

- 4. The proposal was placed in the 110th SEIAA meeting held on 29th & 30th June, 2021. Authority decided to issue EC for an initial period of 5 years for the quantity mentioned in the approved mining plan subject to the Clearance from the National Board for Wild Life, subject to the following specific conditions in addition to the general conditions.
 - The proponent shall carry out quarrying as per the approved Mining Plan and the proponent should strictly follow the Kerala Minor Mineral Concession Rules 2015 and amendments thereby.
 - ii. As the quarry site is located within 10 km radius of the Neyyar and Peppara Wildlife Sanctuary, as per OM dated 8.8.2019 of MoEF&CC clearance from Standing Committee of the National Board for Wildlife is mandatory for starting a

Page 4 of 8

quarry. Hence Project Proponent is directed to obtain a Clearance from Standing Committee of the National Board for Wildlife before starting any activity at site.

- iii. As per OM no F.No.22-65/2017-IA.III dated 30th September2020, under Corporate Environmental Responsibility (CER) the project Proponent shall prepare an Environment Management Plan (EMP) as directed by SEAC during appraisal, covering the issues to address the environmental problems in the project region, indicating both physical and financial targets year wise. The EMP shall be implemented in consultation with District Collector. The indicated cost for CER shall be 2% of the project cost depending upon the nature of activities proposed. The follow up action on implementation of CER shall be included in the half yearly compliance report which will be subjected to field inspection at regular intervals. A copy of the approved EMP by SEAC shall be forwarded to the concerned local self-government institute for information and to support the project proponent in implementation of activities proposed in the EMP.
- iv. Considering the seriousness of COVID Pandemic in the State, the project Proponent shall carry out certain activities under Corporate Environmental responsibility (CER) leading to creation of temporary Covid care facilities and other related activities connected with managing the Covid pandemic in the State. This will be done in consultation with local self-governments and as per an action plan approved by District Collector and SEAC. The indicated cost for this purpose will be 50% of the CER cost estimated in the EMP. The EMP may be modified to accommodate these activities in consultation with SEAC. The activities so implemented shall be shown in the half yearly completion report. A copy of the approved EMP by SEAC shall be forwarded to the concerned local self-government institute for information and to support the project proponent in implementation of activities proposed in the EMP.
- v. In the wake of occurrence of large scale landslides in the State, as per the information provided by the Department of Mining & Geology, it is directed to use only NONEL (Non Electrical) technology for blasting to reduce the vibration of the ground, which is one of the causative factors that triggers landslides, formation of cracks in the surrounding buildings and disturbance to human and wildlife.

Page 5 of 8

City Crushers COMPLIANCEREPORT

vi. As per the directions contained in the OM F.No.22-34/2018-IA.III dated 16th January 2020 issued by MoEF&CC, in obedience to the directions of the Honourable Supreme Court the Project Proponent shall, undertake re-grassing the mining area and any other area which may have been disturbed due to his mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. The compliance of this direction shall be included in the half yearly compliance report which will be monitored by SEAC at regular intervals.

- vii. The EC period will be further extended to cover the project life as estimated by SEAC after a field inspection by SEAC to ensure that the Project Proponent has followed all EC conditions and there is no violation of any Act, Rules and Regulation applicable for quarrying.
- viii. Authority makes it amply clear that EC issued does not necessarily imply that Wildlife Clearance shall be granted to the Project Proponent and that the proposal for Wildlife clearance will be considered by the respective Authorities on its merit and decision taken accordingly. The investment made in the project if any based on this EC in anticipation of Clearance from Wildlife angle shall be entirely at the cost and risk of the Project Proponent and MoEF&CC and SEIAA shall not be responsible in this regard in any manner.
- ix. A copy of the EC shall be marked to IGF(WL), MoEF&CC, PCCF and Chief wild life Warden, Kerala, SEAC, District collector, Thiruvananthapuram and Director Mining and Geology, Department of Industries GOK, besides others for information and necessary further action.
- 5. Environmental Clearance as per the EIA Notification 2006 is hereby accorded for the granite building stone quarry project of Mr.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram- 695572, in Re.Survey No. 222/1, Block No:47 in Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala for an area of 4.270 Ha for the quantity mentioned in the approved Mining Plan, for the project life of 5 years as estimated by SEAC, subject to the specific conditions in Para 4 above, and all the environmental impact mitigation and management measures undertaken by the project proponent in the Form I, EMP, PFR and Mining plan submitted to SEIAA. The assurances and clarifications given by the proponent will be deemed to be a part of these proceedings as

Page 6 of 8

if incorporated herein. Also the general conditions for projects stipulated for mining (items 1 to 57), appended hereto will be applicable and have to be strictly adhered to.

- 6. The Clearance issued will also be subject to full and effective implementation of all the undertakings given in the application form, mitigation measures as assured in the Environment Management Plan and the mining features including progressive mine closure plan as submitted with the application and relied on for grant of this clearance. The above undertakings and the conditions and the undertakings in (Mining), (Blasting), (Mines Drainage), (Stacking of Mineral rejects and Disposal of waste), (Environment Management Plan) & (Progressive Mine Closure Plan) of the Mining Plan as submitted will be deemed to be part of this proceedings as conditions as undertaken by the proponent, as if incorporated herein.
- 7. Validity of the Environmental Clearance will be five (5) years from the date of this Clearance, subject to inspection by SEIAA on annual basis and compliance of the conditions, subject to earlier review of EC in case of violation or non-compliance of conditions or genuine complaints from residents within the security area of the quarry.
- 8. Compliance of the conditions herein will be monitored by the State Environment Impact Assessment Authority or its authorised offices and also by the Regional Office of the Ministry of Environment, Forest & Climate Change, Govt. of India, Bangalore. Necessary assistance for entry and inspection should be provided by the project proponent and those who are engaged or entrusted by him to the staff for inspection or monitoring.
- **9.** Instances of violation if any shall be reported to the District Collector, Thiruvanathapuram
- 10. The Half Yearly Compliance Report (HYCRs) with its contents, covering letter, compliance report and environmental monitoring data have to be submitted in PDF format merged into a single document. The email should clearly mention the name of the project, EC No and date, period of submission and be sent to the Regional Office of MoEF & CC by email only at email ID rosz.bng-mefcc@gov.in. Hardcopy of HYCRs shall not be acceptable.

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY KERALA GENERAL CONDITIONS (for mining projects)

- A separate environmental management and monitoring cell with qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
- Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, including of approach road and internal roads.
- Sprinklers shall be installed and used in the project site to contain dust emissions.
- Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.
- In view of the deep pits left after the excavation, stacking at maximum top level should be carried out.
- 6. Corporate Environment Responsibility agreed upon by the proponent should be implemented.
- The project proponent shall comply the conditions stipulated by the statutory authorities concerned.
- Tarring /multiple options on the access roads shall be undertaken so as to reduce dust pollution during movement of vehicle.
- Overburden materials should be managed within the site and used for reclamation of mine pit as per mine closure plan / specific conditions.
- Height of benches should not exceed 5 m, and width should not be less than 5 m, if there is no mention in the mining plan/specific condition.
- 11. Ground level should be fixed in individual cases separately
- 12. No mining operations should be carried out at places having a slope greater than 45°.
- 13. Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB. This condition is applicable only in such cases if a crusher is adjacent to the quarry.
- 14. The workers on the site should be provided with the required protective equipment such as ear muffs, helmet, etc.
- Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.
- The transportation of minerals should be done in covered trucks to contain dust emissions. The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project. SEAC should assess the number of trees in each project site before the issuance of EC so as to ensure the promptness in planting.
- Explosives should be stored in magazines in isolated place specified and approved by the Explosives Department.
- 18. A minimum buffer distance of 100m from the boundary of the quarry to the nearest dwelling unit or other structures, not being any facility for mining shall be provided.
- 19. 50 m buffer distance should be maintained from forest boundaries.
- Consent from Kerala State Pollution Control Board under Water and Air Act(s) should be obtained before initiating mining activity.
- 21. All other statutory clearances should be obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.
- 22. In the case of any change(s) in the scope of the project, extent quantity, process of mining technology involved or in any way affecting the environmental parameters/impacts as assessed, based on which only the E.C is issued, the project would require a fresh appraisal by this Authority, for which the proponent shall apply and get the approval of this Authority.
- 23. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- 24. The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.

- The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the State Environment Impact Assessment Authority (SEIAA) office and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation.
- 26. The Environmental Clearance shall be put on the website of the company by the proponent.
- 27. Proponent shall submit half yearly reports in soft copy and SEIAA will upload it on the website.
- 28. The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font of size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public
- 29. The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.
- 30. No change in mining technology and scope of working should be made without prior approval of the SEIAA, No further expansion or modifications in the mine shall be carried out without prior approval of the SEIAA, as applicable.
- 31. The Project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any, originating from the mine lease shall be taken.
- The top soil, if any, shall temporarily be stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The over burden (OB) generated during the mining operations shall be stacked at earmarked dump site(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of the dumps shall be maintained to 45. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface run off. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. The entire excavated area shall be backfilled. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining.
- 33. Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps to prevent run off of water and flow of sediments directly into the river and other water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.
- 34. Effective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of PM₁₀ and PM_{2.5} such as haul Road, loading and unloading points and transfer points it shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.
- Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.
- 36. Measures should be taken for control of noise levels below 85 dBA in the work environment.
- 37. The funds earmarked for environmental protection measures and CER activate should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the State Environment Impact Assessment Authority (SEIAA) office.
- 38. The Regional Office of MOEF & CC located at Bangalore shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (S) of the Regional Office by furnishing the requisite data/information/monitoring reports.
- Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act. 2010.
- 40. Concealing the factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- 41. The SEIAA may revoke or suspend the order, for non implementation of any of the specific or thisimplementation of any of the above conditions is not satisfactory. The SEIAA reserves the right to alter/modify the above conditions or stipulate any further condition in the interest of environment protection.

- 42. The above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license on consent given by any other authority for the same project.
- 43. The Environmental Clearance will be subject to the final order of the courts in any pending litigation related to the land or project, in any court of law.
- 44. The mining operation shall be restricted to above ground water table and it should not intersect ground water table.
- 45. All vehicles used for transportation and within the mines shall have 'PUC' certificate from authorized pollution taking centre. Washing of all vehicles shall be inside the lease area'
- 46. Project proponent should obtain necessary prior permission of the competent authorities for drawal of requisite quantity of surface water and ground water for the project.
- 47. Regular monitoring of flow rates and water quality upstream and downstream of the springs and perennial nallahs flowing in and around the mine lease area shall be carried out and reported in the six monthly reports to SEIAA.
- 48. Occupational health surveillance program of the workers should be under taken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.

PROCEEDINGS OF THE STATE LEVEL ENVIRONMENT IMPACT ASSESSMENT AUTHORITY – KERALA, THIRUVANANTHAPURAM

(Present: Dr.H.Nagesh Prabhu IFS (Retd.), Chairman, Shri.Krishna Panicker, , Member, Dr.V.Venu IAS, Member Secretary)

Sub: SEIAA –Environmental Clearance issued to Sri. Biju V. T. for the Granite Building Stone Quarry Project in Survey No. 222/1, Block No: 47 in Aryanad Village, Nedumangad Taluk, Thiruvananthapuram District - Transferred to Sri. N.Dananjayan Unnithan, Managing Partner, M/s City Crushers - Orders issued.

State Level Environment Impact Assessment Authority, Kerala

Proposal No. SIA/KL/MIN/266793/2022

File No. 1261/EC2/2019/SEIAA

Dated: 24.06.2022

Read: 1. EC No. 30/Q/2021 dated 22.07.2021

- 2. Request from Shri. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers on 08.04.2022.
- 3. Minutes of the 114th SEIAA meeting held on 25th, 26th May and 1st June 2022
- 4. G.O(Rt.) No.29/2019/Envt dt.12.04.2019.

ORDER

Environmental Clearance was issued vide paper read 1st to Mr.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram- 695572, for the Granite Building Stone Quarry Project in Block No:47, Re.Survey No. 222/1, Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala.The validity of EC expires on 21.07.2026.

Vide paper read 2nd above, an application for transfer of Environmental Clearance was submitted by Sri. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers. The land for the building stone quarry project is a private owned land and this is now purchased by Sri.N.Dananjayan Unnithan, Managing Partner, M/s City Crushers. Hence the EC holder, Sri..Biju.V.T. decided to transfer the EC to Sri..N.Dananjayan Unnithan, Managing Partner, M/s City Crushers.

Page 1 of 3

The proposal was placed in the 114th SEIAA meeting held on 25th, 26th May and 1st June 2022. The Authority noted the request of the proponent to transfer the EC to Mr. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers. After verifying the documents and having convinced of the reasons for transfer, the Authority agreed to transfer the EC issued to Mr. Biju. V. T for the Granite Building Stone Quarry Project in Survey No. 222/1, Block No: 47 Aryanad Village, Nedumangad Taluk, Thiruvananthapuram District, Kerala to Mr. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers as per clause 11 of EIA notification 2006.

In the above circumstance, the Environmental Clearance issued to Sri.Biju.V.T., R.S.Bhavan, Narangarakonam, Veeranakavu P.O., Thiruvanathapuram- 695572, for the Granite Building Stone Quarry Project in Block No.47, Re.Survey No. 222/1, Aryanad Village, Nedumangad Taluk, Thiruvanathapuram District, Kerala is hereby transferred to Sri. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers, Mehfil, TC 16/1722-1, ULRA – 36, Ulloor Lane, DP1, Jagathy, Thiruvanathapuram – 695014, as per Clause 11 of EIA Notification 2006 on the same Terms and Conditions under which the EC was initially granted and for the same validity period. Here after, all the transactions/communications related to this project will be with Sri. N. Dananjayan Unnithan, Managing Partner, M/s City Crushers, Mehfil, TC 16/1722-1, ULRA – 36, Ulloor Lane, DP1, Jagathy, Thiruvanathapuram – 695014.

No. 45/2022-23/9024/M3/2021/DMG Dated Thiruvananthapuram 23/05/2022

ORDER

A quarrying lease was granted to Shri. Biju V.T, R.S Bhavan, Naragarakonam, Veeranakavu (P.O.), Thiruvananthapuram to quarry Granite (Building Stone) over an area of 4.270 Hectare of land comprised in Re-survey No. 222/1 of Aryanadu village, Nedumangad Taluk Thiruvananthapuram District for a period of 12 (twelve years) as per the reference 1st cited. Accordingly the lease deed was executed and registered on 06.01.2022 and the same will be expiring on 05.01.2034.

An application was submitted Shri. Biju V.T, R.S Bhavan, Naragarakonam, Veeranakavu (P.O.), Thiruvananthapuram to transfer the said lease to M/s. City Crushers, Mehfil, TC 16/1722-1, ULRA-36, Ulloor lane, DPI, Jagathy, Thiruvananthapuram – 695 014, represented by the Managing Partner, Shri. Dhananjayan Unnithan. The Geologist District Thiruvananthapuram recommended vide reference 3rd cited that the office has no objection to transfer the lease granted in favor of Shri. Biju V.T, R.S Bhavan, Naragarakonam, Veeranakavu (P.O.), Thiruvananthapuram to M/s. City Crushers, Mehfil, TC 16/1722-1, ULRA-36, Ulloor lane, DPI, Jagathy, Thiruvananthapuram – 695 014, represented by the Managing Partner, Shri. Dhananjayan Unnithan. On verification of the application with the documents attached therewith, it is found that the

File No.DMG/9024/2021-M3

1/212435/2022

application and the documents are proper and genuine.

In the above circumstances, by the exercising the powers conferred by Kerala Minor Mineral Concession Rules 2015, sanction is hereby accorded for the transfer of quarrying lease granted vide reference 1st cited in favour of Shri. Biju V.T, R.S Bhavan, Naragarakonam, Veeranakavu (P.O.), Thiruvananthapuram to M/s. City Crushers, Mehfil, TC 16/1722-1, ULRA-36, Ulloor lane, DPI, Jagathy, Thiruvananthapuram – 695 014, represented by the Managing Partner, Shri. Dhananjayan Unnithan. The above said quarrying lease shall hence forth stands transferred to M/s. City Crushers, Mehfil, TC 16/1722-1, ULRA-36, Ulloor lane, DPI, Jagathy, Thiruvananthapuram – 695 014, represented by the Managing Partner, Shri. Dhananjayan Unnithan on condition that the Department is absolved from all the liabilities and responsibilities arising out of this transfer and the transferee will pay the outstanding dues, if any, of the transferor to Government.

The transferee, M/s. City Crushers, Mehfil, TC 16/1722-1, ULRA-36, Ulloor lane, DPI, Jagathy, Thiruvananthapuram – 695 014, represented by the Managing Partner, Shri. Dhananjayan Unnithan shall execute the transfer lease deed in Form E of the Kerala Minor Mineral Concession Rules 2015 within three months from the date of this order as per Rule 45 (3). The transferee shall not commence quarrying operations without obtaining statutory licenses like Environmental Clearance, Consent to operate issued by the Kerala State Pollution Control Board, Explosive License and D&O licence issued by the Panchayath concerned, in favour of the transferee.

CUSTOMER DETAILS		
	M/s City Crushers	
Customer Name & Address	Formerly Proprietor Mr. Biju V.T Aryanad, Nedumangad Thiruvananthapuram District	
Customer Reference	Test Request Date: 19-08-2024	

SAMPLE DETAILS				
Product Category	Water	Sample Code	WT24080520	
Sample Name	Surface Water	Sample Received on	20-08-2024	
Sample Description by Customer	Quarry Pond Water	Temperature @ Receipt	4°C	
Sample Conditions at Receipt	Fit for Analysis	Test Commenced on	21-08-2024	
Sample Quantity& Packing	2 L & 125 ml in a Plastic Bottle	Test Completed on	26-08-2024	
Information Provided by Customer		Sampled by	Lab Authorized Sampler	

DETAILS OF SAMPLING				
Sample Source	Project Site	Date of Sampling	19-08-2024	
Sampling Procedure	SEAAL/QAD/SOP/7.3/01	Sample Temperature	27 °C	

INFORMATION PROVIDED BY CUSTOMER -SAMPLING SITE DETAILS				
Survey No.	221/1			
Village	Aryanad	Taluk	Nedumangad	
District	Thiruvananthapuram	State	Kerala	

TEST RESULTS- CHEMICAL DISCIPLINE				
SI. No. PARAMETERS TEST METHOD UNIT RESULT				
1	Colour	IS 3025 (Part 4): 2021	Hazen	5
2	Odour	IS 3025 (Part 5): 2018		Agreeable
3	Turbidity	IS 3025 (Part 10): 2023	NTU	2.1
